

The RD Series Inverter/Charger

For Renewable Energy Applications

The RD Series Inverter/Charger is powerful, easy-to-use, and cost effective.

MODEL NUMBERS:

- RD2212
- RD1824
- RD2824
- RD3924

AVAILABLE FOR:

Renewable Energy Systems
 Off-grid Power
 Back-up Power

AVAILABLE ACCESSORIES:

- AGS
- Battery Monitor Kit
- DC Load Disconnect
- Fuse Blocks
- Remote
- Remote Switch Adapter
- Series Stacking Interface

The Powerful Difference

Reliable Off-Grid Power from Magnum Energy

The RD Series Inverter/Charger from Magnum Energy is a new generation inverter designed specifically for renewable energy use. The RD Series is powerful, easy-to-use, and best of all, cost effective.

Power Factor Corrected (PFC) Charger: Our PFC charger is built into all of our inverter chargers. It uses less energy from a generator than a standard charger – using 25-30% less AC current than standard chargers.

Safe and reliable: The RD Series is ETL Listed to the stringent requirements of UL 1741, ensuring that the inverter is safe and reliable.

Easy-to-install: Install the RD Series in four easy steps: simply connect the inverter's output to your distribution circuits or electrical panel, connect your power cable (AC) to the inverter's easy-to-reach terminal block, connect the batteries, and switch on the power.

Features

You asked and Magnum listened.

The RD Series Inverter/Charger is loaded with features:

Choices: The RD Series comes in four power models and 12 and 24 volt models, allowing you to choose the model that is right for you.

Versatile mounting: Mount the RD Series on a shelf or wall.

Lightweight: The lightweight aluminum base and cover also provides noise reduction and corrosion resistance.

Multiple ports: The RD Series provides multiple ports, including an RS485 communication port for network expansion, and a remote port.

Accessible design: The extra large AC access cover with terminal screw block and 360° DC connection terminals with covers make this inverter more accessible when it needs to be.

Convenient switches:

The RD Series comes with an on/off inverter-mounted switch with an easy-to-read LED indicator.

Expanded transfer relay:

60 Amp transfer service is available on all models.

Buy with ease: The RD Series is backed by a two-year (24-month) limited warranty.

Accessories and Options*

Remote control: For convenient finger-tip operation, including the new one-knobTM programming.

AGS module: Automatically starts and stops your generator based on temperature or battery voltage.
